## 目 录

|                                                                                                                                                                                 |      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>基于残差图神经网络的成矿远景区预测研究</b><br><b>Research on Prediction of Mineralized Prospective Areas Based on Residual Graph Neural Network</b>                                             |      |
| 张鑫, 薛子如, 高乐 .....                                                                                                                                                               | 923  |
| <b>中国龙卷风时空统计特性及灾情分析</b><br><b>Temporal-Spatial Statistical Characteristics and Disaster Analysis of Tornadoes in China</b>                                                      |      |
| 孙禹枫, 李丹煜, 王京学, 刘彬, 谭笑, 邱刚, 范文琪 .....                                                                                                                                            | 935  |
| <b>东海中部近海表层沉积物粘土矿物特征及地质意义</b><br><b>Characteristics of Clay Minerals of the Surface Sediments on the Central East China Sea Offshore Area and Their Geological Significance</b> |      |
| 李金铎, 施兴安, 赖纪海, 余海俊, 王日彪 .....                                                                                                                                                   | 949  |
| <b>老河口市主要地质灾害发育与分布规律研究</b><br><b>Study on the Development and Distribution Patterns of Major Geological Hazards in Laohekou City</b>                                            |      |
| 文美霞, 常亮, 周艳松, 易春瑶, 刘正平, 陈钰 .....                                                                                                                                                | 956  |
| <b>VTI 介质弹性波的有限差分正演模拟</b><br><b>Finite-Difference Forward Simulation of Elastic Waves in VTI Media</b>                                                                          |      |
| 徐定富 .....                                                                                                                                                                       | 969  |
| <b>昔阳 YRY-4 钻孔应变仪观测资料可靠性分析</b><br><b>Reliability Analysis of Observation Data of Xiyang YRY-4 Borehole Strain Gauge</b>                                                         |      |
| 吕永青, 宫静芝, 池毅, 张亮娥, 史舒婷, 王振江 .....                                                                                                                                               | 983  |
| <b>基于 SBAS-InSAR 的中老铁路玉溪化念段地表形变监测研究</b><br><b>Research on Surface Deformation Monitoring of the Yuxi-Huanian Section of the China-Laos Railway Based on SBAS-InSAR</b>          |      |
| 何婷, 吴玉茜, 万晓玲, 吴雨轩 .....                                                                                                                                                         | 991  |
| <b>高邮凹陷真武 - 曹庄地区戴南组差异富集控制因素</b><br><b>Controlling Factors for Differential Enrichment of Dainan Formation in Zhenwu-Caozhuang Area, Gaoyou Sag</b>                              |      |
| 张建宁 .....                                                                                                                                                                       | 1005 |
| <b>页岩沉积环境、岩相及储集空间特征研究进展</b><br><b>Research Progress on Sedimentary Environment, Lithofacies and Reservoir Space Characteristics of Shale</b>                                    |      |
| 张顺 .....                                                                                                                                                                        | 1019 |
