

## TABLE OF CONTENTS

## 目 录

### **Monitor and Analysis of Water Bloom in the Middle and Lower Reaches of Hanjiang River in 2021**

.....Chao Zhang, Debing Zhang, Jing Yuan, Lian Peng, Jing Tian, Lele Deng (235)

### **Influence of the River-Wading Project on the Hydrological Characteristics in the Downstream of Danjiangkou Dam**

.....Yunfa Lin, Hongxia Zhang, Pengcheng Gao, Jian Zuo, Ying Chen (242)

### **Runoff Simulation in the Lancang River Basin Based on LWHM-LUCC Model**

.....Tao Yu, Ping Xie, Yanfang San, Ziyi Wu, Linqian Wu, Lu Wang (250)

### **Analysis of the Relationship between Annual Maximum Peak Discharge and Extreme Climate in the Source Region of the Yangtze River**

.....Baojia Zhou, Qiong Dai, Lu Zhao (261)

### **Minimum Energy Consumption Model of Cascade Hydropower Stations Based on Self-Optimization Simulation Technology**

.....Kaihua Ye, Changming Ji, Yanke Zhang, Qiumei Ma (270)

### **The Realization and Application Analysis of the Online Monitoring System Based on Ultrasonic Time Difference Flow Measurement Method**

.....Qiaoli Wang, Ran Li, Shaoying Long (280)

### **Research on the Impact Factors of SPEI in the Source Region of the Yellow River Based on Geo-Detector**

.....Meijiao Xu, Quan Quan (288)

### **Integration and Application of Flow Online Monitoring System Based on H-ADCP**

.....Qiaoli Wang, Zhengying Yuan, Ran Li (299)

### **Optimal Operation Method of Cascade Hydropower Stations Based on Improved Genetic Algorithm**

.....Rujun Fei, Yang Liu, Xinfeng Jin, Huazheng Yin, Hao Yu, Liangge Cheng (305)

### **Real-Time Reservoir Flood Forecasting Method Based on LSTM Network**

.....Zongrang Chen, Yanjun Yin, Biao Wan, Jun Wan, Yaoxiang Yu (312)

### **Study of the Stormwater Resources Utilization in the Xiamen City Based on Mike Basin**

.....Jinhua Liu, Jin Guo, Fahong Zhang, Bin Zhu, Changxiang Cao (322)

### **Influence of Hydropower Station Construction on Downstream Hydrological Characteristics**

.....Yueqing Li (331)
