

## TABLE OF CONTENTS

## 目 录

|                                                                                                                                                                                    |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Prospecting Potential Analysis of the Zhenzhushan Tungsten-Tin Mine Area in Northeast Jiangxi Province</b><br>(赣东北珍珠山钨锡矿区找矿潜力剖析)                                                |     |
| Z. PENG, R. J. Z. XI, Z. Y. XIE.....                                                                                                                                               | 197 |
| <b>Practice and Application of a New Method for Two-Stage Suspension Rapid Drainage of Coal Mine Water Seepage Accident in Luotuoshan Mine</b><br>(一种煤矿透水事故两级悬浮快速排水新方法在骆驼山矿的实践与应用) |     |
| T. G. JIANG.....                                                                                                                                                                   | 204 |
| <b>Design and Development of Mobile Inspection System for Coal Mining Subsidence in Ji'ning City</b><br>(济宁市采煤塌陷地移动巡查系统设计与开发)                                                      |     |
| Z. H. JI.....                                                                                                                                                                      | 210 |
| <b>Mechanical Characteristics of Sprocket Chain Ring of Scraper Conveyor</b><br>(刮板输送机链轮链环的力学特性)                                                                                   |     |
| W. B. HOU, M. XIE, Y. Q. LI, B. B. PEI, Z. LI, P. F. WANG.....                                                                                                                     | 216 |
| <b>Analysis on Obstacles Crossing of Explosion-Proof Crawler Hydraulic Support Carrier</b><br>(防爆履带式液压支架搬运车越障分析)                                                                   |     |
| M. XIE, W. B. HOU, Y. Q. LI, Z. LI, B. B. PEI, P. F. WANG, J. ZHOU.....                                                                                                            | 225 |
| <b>Research on Frequency Control System of Scraper Conveyor in Fully Mechanized Mining Face of Coal Mine</b><br>(煤矿综采工作面刮板输送机变频调速系统研究)                                             |     |
| X. M. YAN.....                                                                                                                                                                     | 234 |
| <b>Geological Structure Analysis of 17102(3) Working Face in Pansan Coal Mine</b><br>(潘三矿 17102(3)工作面地质构造分析)                                                                       |     |
| C. LI, D. X. YAO, G. F. ZHANG, M. M. ZHANG, X. S. MENG.....                                                                                                                        | 242 |
| <b>Application of Low Smoke and Halogen-Free Technology in Coal Mine Cables</b><br>(浅析低烟无卤技术在煤矿用电缆的应用)                                                                             |     |
| B. J. LI.....                                                                                                                                                                      | 249 |
| <b>Study on Prevention and Control Technology of High-Pressure Aquifer in Ordovician of Xin'an Coal Field</b><br>(新安煤田底板奥陶系高承压含水层防治技术研究)                                           |     |
| S. P. ZHU, L. J. CAI, H. Y. DONG, Z. Z. YANG.....                                                                                                                                  | 255 |
| <b>Study on Crack Propagation of Steel Pipe in Semi-Gas Blasting Test</b><br>(半气体爆破试验钢管裂纹扩展研究)                                                                                     |     |
| J. WU, L. J. WU, Q. J. XU.....                                                                                                                                                     | 266 |

**Analysis of Failure of MG750/1920-WD Shearer Crusher and Its Solutions**

**(浅析 MG750/1920-WD 采煤机破碎机故障及解决方案)**

H. B. YU.....275

**Cause Analysis and Support Parameter Design of 302 Auxiliary Transportation Slots in Boertai Mine 12**

**(布尔台矿 12 上 302 辅助运输顺槽片帮原因分析及支护参数设计)**

Q. X. LV, Y. F. LI, L. GAO, G. J. SONG, X. Z. HUA, D. H. CHEN.....279

**Study on Increasing Permeability of Soft Coal Seams by Step-by-Step Hydraulic Fracturing Technology**

**(软煤层逐级跃升水力压裂增渗技术研究)**

W. QIAO, Q. ZHANG.....289

**A New Type of Comprehensive Excavation Advanced Support Device in Engineering Practice and Application**

**(一种新型综掘超前支护装置在工程中的实践与应用)**

X. J. JIA.....296

**Dynamic Analysis of the Planetary Gear Train in the Cutting Section of the Shearer**

**(采煤机截割部行星传动轮系动力学分析)**

D. C. YANG, L. LI, Y. L. WANG.....304
