

## TABLE OF CONTENTS

## 目 录

|                                                                                                                                                                   |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 基于深度自编码器对网络的跨域行为识别研究<br>Cross Domain Action Recognition Based on Deep Dual Auto-Encoder Network<br>密豪坤.....                                                       | 893 |
| 基于手机钱包的 NFC 虚拟校园卡系统的实现<br>The Realization of NFC Virtual Campus Card System Based on Mobile Wallet<br>常潘, 曹志凯.....                                                | 905 |
| 基于肌电特征 $K$ 值的穿戴式膝关节运动疲劳的监测系统研究<br>Research on Wearable Knee Sports Fatigue Monitoring System Based on EMG<br>Characteristic $K$ -Value<br>陈小月, 卢小龙, 郭旭东, 郝又国..... | 915 |
| 基于 BERT 的机构名命名实体细粒度实体识别研究<br>Research on Fine-Grained Recognition of Organization Named Entities Based on BERT Model<br>朱淼, 刘松林, 高一品.....                         | 930 |
| 基于文本挖掘的上海市大气污染治理政策工具变迁研究<br>A Study on the Change of Air Pollution Control Policy Tools in Shanghai Based on Text Mining<br>王佳伟.....                              | 940 |
| 气象掌上值班管理系统的设计与实现<br>Design and Implementation of Meteorological Palm on Duty Management System<br>陈福康.....                                                        | 949 |
| 基于智能可穿戴设备的实时健康监测系统<br>Real-Time Health Monitoring System Based on Smart Wearable Devices<br>刘亚国.....                                                              | 959 |
| 基于嗅探的无线传感器网络溯源机制的研究与设计<br>Research and Design of Source Tracing Mechanism in Wireless Sensor Networks Based on Sniffing<br>张亚平, 金晖宏, 尹雨欣.....                     | 968 |
| 基于社区化多功能社交互助平台的设计与实现<br>Design and Implementation of a Community-Based Multi-Functional Social Mutual Aid Platform<br>邵清波, 仲毅, 黄瑞, 唐文杰, 庞恒鑫, 王立文.....             | 976 |
| 基于 B/S 模式的介入手术临床管理系统的开发与设计<br>Development and Design of Interventional Surgery Clinical Management System Based on B/S Model<br>李咏, 童基均.....                      | 984 |

**融合改进人工势场法的 A\* 算法优化****Optimization of A\* Algorithm Integrating Improved Artificial Potential Field Method**

张恒瑞, 孟海涛.....994

**壳体电子束焊缝无损检测信息管理系统的设计与实现****Design and Realization of Nondestructive Testing Information Management System for Shell Electron Beam Welds**

赵爽, 龙陵, 安东阳, 王耀宗, 张海玲, 梁昊, 金珊.....1005

**大数据背景下企业经济管理智能终端设计****Design of Enterprise Economic Management Intelligent Terminal under the Background of Big Data**

李晓天.....1017

**基于粒子群优化算法的模糊 PI 控制性能研究****Research on the Performance of Fuzzy PI Control Based on Particle Swarm Optimization Algorithm**

蔡哲贵.....1024

**元宇宙的构成要素及发展趋势探讨****Discussion on Important Components and Development Trends of Metaverse**

徐明毅.....1037

**基于深度学习的 MR 医学图像重建方法研究****Study on Deep Learning-Based MR Medical Image Reconstruction Method**

蔡宇佳, 张利, 吴康宁, 陈旋.....1047

**浅析透明加密技术在受控环境下的运用****A Brief Analysis of Application of Transparent Encryption Technology in Classified Environment**

李珊珊.....1058

**基于格上的一次群签名方案****Lattice-Based Primary Group Signature Scheme**

侯建, 李子臣, 张珍珍.....1064

**智慧城市下市民服务 APP 应用研究****Research on Application of Citizen Service APP in Smart City**

李军阳, 王丽娜.....1071

**基于智慧校园的教务档案管理平台的设计与实现****Design and Implementation of Educational Administration Archives Management Platform based on Smart Campus**

贾保敏, 孔维宾.....1087

**智能汽车防密闭救生系统设计****Design of Intelligent Vehicle Anti-Airtight Lifesaving System**

王啟坤, 刘以玄, 封涛, 郑洋, 卢志刚, 杨连彪, 莫献丽, 赵盛萍.....1097

|                                                                                                                                                                                               |      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>基于 XGBoost 特征提取的热电联产发电功率预测</b><br><b>Power Forecast of Cogeneration Based on Feature Extraction Using XGBoost</b>                                                                          |      |
| 常庆, 罗龙峰.....                                                                                                                                                                                  | 1105 |
| <b>基于 Web 的校园漫游系统设计与实现</b><br><b>Design and Implementation of Web-Based Campus Roaming System</b>                                                                                             |      |
| 曾伟, 陈童, 李兆勋, 戴晨阳, 和炜杰.....                                                                                                                                                                    | 1123 |
| <b>基于微信小程序的智慧门禁考勤系统设计</b><br><b>Design of Smart Access Control and Attendance System Based on WeChat Applet</b>                                                                               |      |
| 徐源, 吴波, 胡欣灵, 潘承帆, 余浩, 张荣芬.....                                                                                                                                                                | 1131 |
| <b>基于集成学习的操作机构控制电路故障分类</b><br><b>Fault Classification of Operating Mechanism Control Circuits Based on Integrated Learning</b>                                                                |      |
| 张峥, 孟海涛, 邵霆啸.....                                                                                                                                                                             | 1141 |
| <b>基于区块链技术的全省不动产登记数据汇交可信校验模型探讨</b><br><b>Discussion on the Provincial Real Estate Registration Data Collection and Delivery Credibility Verification Model Based on Blockchain Technology</b> |      |
| 过一凤, 冯桂林, 梁毅, 康逸云.....                                                                                                                                                                        | 1147 |
| <b>基于深度学习的星系图重建方法研究</b><br><b>Research on Galaxy Map Reconstruction Method Based on Deep Learning</b>                                                                                         |      |
| 吴康宁, 张利, 蔡宇佳.....                                                                                                                                                                             | 1154 |
